Sometimes short and sweet is just the way to go. The key to a short wig you'll wear over and over again? Keeping it playful. And it doesn't get more playful than this wavy style with slightly tousled, textured layers, which cleverly gives the illusion of natural growth with a SmartLace™ hairline and monofilament part.

Understated yet so on-trend, this long, loose wave style is the newest addition to our collection, complete with heat-resistant fibers so you can experiment with your look. The subtle waves can be dressed up or down, and the SmartLace™ front and monofilament top offer plenty of heat-friendly alternatives for styling and parting.
