EMBRACE THE COMFORT AND CONVENIENCE  
OF OUR SMARTLACE™ COLLECTION WITH  
FOUR NEW, SYNTHETIC STYLES.

Each wig's ready to wear lace front creates the illusion of a natural-growing hairline and offers options for off-the-face styling. The cap conforms to each wearer's head for a secure fit that feels like it's been custom-shaped. Plus, maintenance is minimal thanks to synthetic fibers that can withstand washing and drying and still retain style. Choose from voluminous long layers, silky tresses that fall to mid-back, an angled bob or classic shoulder-skimming layers.

# HOW TO GET THE LOOK

---

## **PREP**

Apply Jon Renau Pick Me Up Dry Shampoo to improve grip for styling and to tone down the luster of synthetic fiber for a more realistic look.

## **STEP ONE**

Section your hair from ear to ear across the back of your head horizontally.

## **STEP TWO**

Take the top section and create a ponytail.

## **STEP THREE**

Take the bottom section and pull hair halfway through the hair tie, as if you're about to create a ponytail, but instead creating a loop with the ends left out. This should create a 'P' shape.

## **STEP FOUR**

Pull the ends of the top ponytail through the loop underneath that you created in step 3 (or top of the 'P' shape) and tug the remaining ponytail ends to tighten and secure your final look.

## **STEP FIVE**

Soften the hairline by pulling out a few baby hairs and face-framing pieces.

**ARIA** Frame your features with this on-trend, long-layered style. Layers amplify volume well past shoulder length for a flattering and luscious look. This silky, synthetic style achieves a natural-looking hairline and a light feel thanks to the SmartLace front and hand-tied, single monofilament top.
